# The more ..... the more ...

## **Expressing ratios:**

• The older I get the tireder I feel.

To express uncertainty we

can use "to tend to ...": "likely" does a smiliar job:

- The more people earn the more they tend to save.
- The more people earn the more likely they are to save.

The more I know about this job the less interested I am in applying for it.

# Rewrite these sentences using the above construction:

- The number of accidents rises in proportion to the speed limits imposed.
